4/12/80

Dear Jimmy,

When you asked me about records pertaining to Kist I told you I had copies, had taken them from the file and in refiling had not come to them. I still haven't.

However, I came to a reference to one and it gives the number, 4713. You may want to have a record of this.

It is a record of 6/25/68 and it states that as of then you had become even more cooperative, even with your appointed counsel.

Cooperative is their word. As I recall it this record actually says you were talking even less, including to counsel.

Sincerely,

Harold Weisberg
